

THE RANDALL D. CEBUL, MD, VISITING PROFESSOR ENDOWED LECTURESHIP

As Dr. Cebul often echoed,
“A rising tide lifts all boats.”

Randall D. Cebul, MD, was dedicated to improving the quality of care for populations most in need. He led the Division of General Internal Medicine at MetroHealth and was deeply committed to mentorship and training.

As the founding director of the MetroHealth and Case Western Reserve University Center for Health Care Research and Policy, Dr. Cebul worked to improve and inform health policy and practice. He also founded Better Health Partnership, bringing healthcare and other stakeholders together to improve quality and health outcomes and eliminate disparities.

The late Dr. Cebul will be remembered as a thought leader and innovator who championed fair and accessible community health. A changemaker and natural collaborator, Dr. Cebul worked to break down silos to achieve an equitable healthcare system.

The Randall D. Cebul, MD, Visiting Professor Endowed Lectureship will:

- Honor Dr. Cebul’s legacy, recognizing his leadership, research and dedication to improving the health of all populations.
- Provide an enduring memorial, celebrating Dr. Cebul’s many accomplishments.

The Randall D. Cebul, MD, Visiting Professor Endowed Lectureship

- Will provide an endowment in perpetuity that will support an annual lecture by a visiting professor in the Population Health and Equity Research Institute.
- Will provide resources to support ongoing learning and MetroHealth staff capacity to research population health.
